

# COBRA II ATV SHIELD

## Cobra II with Fixed Mount

Universal two point mounting system, mounts between your controls and bar clamps on the downward part of 7/8" bars. Shields are made of high quality optical-grade polycarbonate featuring scratch resistant surface and distortion free optics. They are so strong that you don't need to remove them when trailering your ATV (ATV must be facing forward).

## Cobra II with Rapid Release Mount

The NEW Rapid Release mount kit offers almost instant removal of any PowerMadd Cobra II windshield. The Rapid Release mount offers all the benefits of the Fixed mount plus a quick release function. Loosen the jam nut and pull the pin, it's that easy. Both mount kits offer to be more universal than ever allowing three shield options (with headlight cut-out, without headlight cut-out and SportShield) to fit over 80% of current ATV models. The unique two-point mounting system is universal and makes installation quick and easy. Unlike some shields, you don't have to remove a Cobra shield to trailer your ATV (ATV must be facing forward).
