

## CLUTCH HOLDING SHAFT Part #725-015

Part #725-015 is a clutch holding shaft. It is designed with a case hardened 30mm taper shaft for holding Polaris, Comet or Arctic Cat clutches when removing the clutch spider. The base can be held solidly in a vice. It is plated for tool protection.

Use 1/2" bolt & washer to fasten the clutch to the shaft.

When finished simply remove clutch with the appropriate puller.

Thank you for choosing HPE for your snowmobiling needs.
