

**CLUTCH HOLDER**  
**Part #800-301 (30mm)**  
**Part #800-305 (33mm)**

Part #800-301 & #800-305 are clutch holding tools. Designed with a case hardened taper shaft for holding Polaris, Comet or Arctic Cat clutches when removing the clutch spider. The base can be mounted solidly to a bench top. It is plated for tool protection.

Use 1/2" bolt & washer to fasten the clutch to the clutch holder.

When finished simply remove clutch with the appropriate puller.

Thank you for choosing HPE for your snowmobiling needs.
